main.py Visualize Run Output

```
1 import numpy as np
2 marks = np.array([78, 65, 92, 55, 84])
3 average = np.mean(marks)
4 highest = np.max(marks)
5 lowest = np.min(marks)
6 print("Marks:", marks)
7 print("Average Marks:", average)
8 print("Highest Marks:", highest)
9 print("Lowest Marks:", lowest)
```

Marks: [78 65 92 55 84]
Average Marks: 74.8
Highest Marks: 92
Lowest Marks: 55
